One Frame. Endless Possibilities.

One Frame. Endless Possibilities.

Monolithic PMMA Overlay

Frame: 6AL-4V Titanium
Overlay: PMMA Monolithic

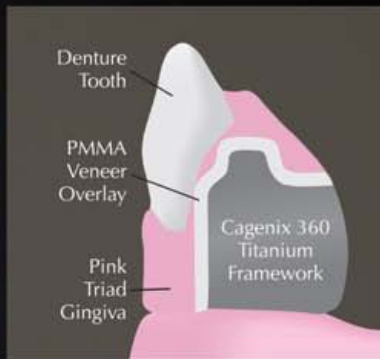

Tooth: PMMA Surface
Gingiva: Layered Triad

An ideal budget-friendly solution for those seeking durable or easily replaceable restorations. This monolithic PMMA lends itself for use in bruxers, or for temporizing your patients. Like all Cagenix 360 restorations, future upgrades are painless.

As Low As

\$1,750

Complete Restoration

Fast Hybrid™ On PMMA Veneer

Frame: 6AL-4V Titanium
Overlay: PMMA Veneer

Tooth: Denture Tooth
Gingiva: Layered Triad

This next-generation fixed-hybrid offers the aesthetic benefits of denture teeth, while reducing labor time & costs by up to 80%. In addition, it offers improved repairability, upgradability, and 40% lower final costs over traditional fixed hybrid options.

As Low As

\$2,000

Complete Restoration

Monolithic Zirconia Overlay

Frame: 6AL-4V Titanium
Overlay: Zirconia Monolithic

Tooth: Zirconia or Porcelain
Gingiva: Stain or Porcelain

Upgrade from your old monolithic restorations with our improved durability, simple retrievability, and 30% lower cost. Optional porcelain stacking on gingival and occlusal surfaces offers best-in-class aesthetics at an incredible value.
